Conclusions

Main issues (regarding EIPP):

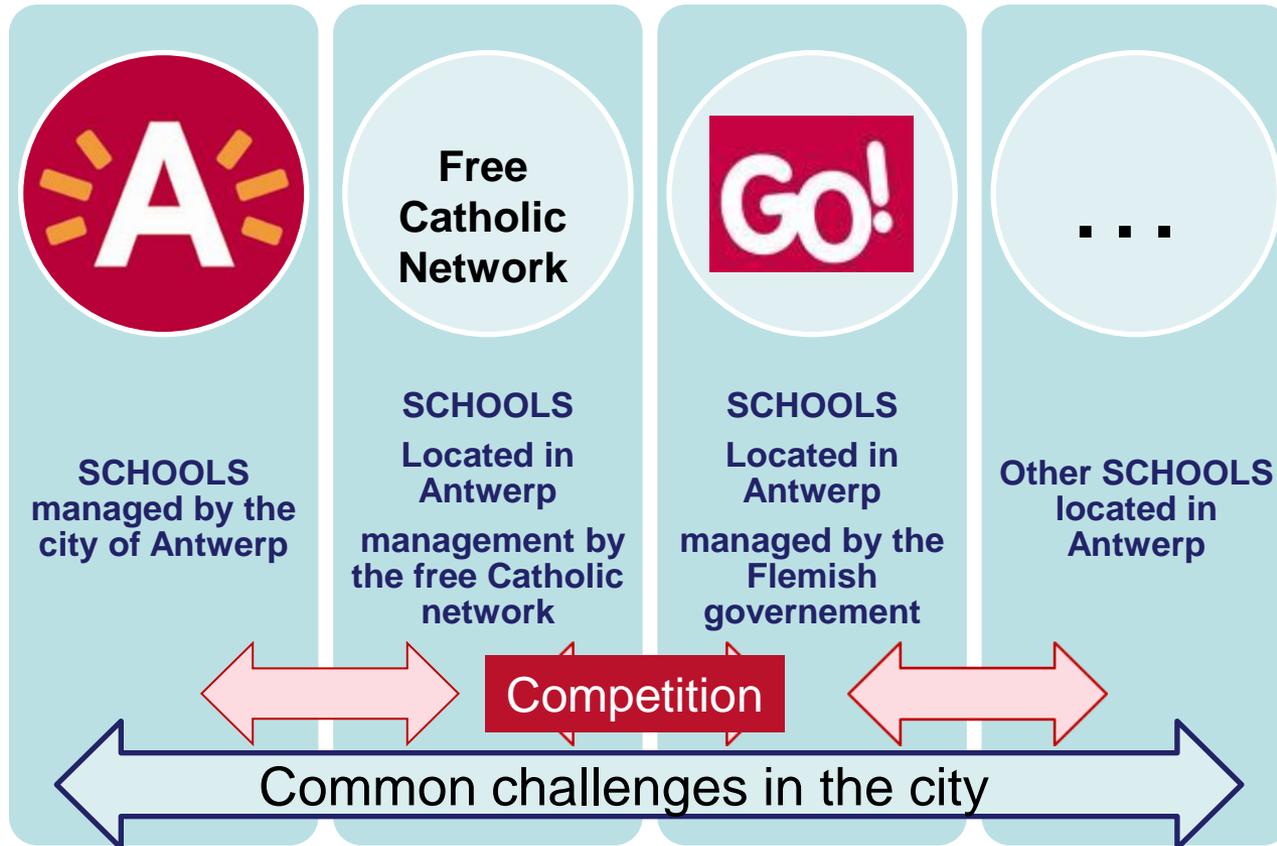

- ESL, monitoring of our mission
- Grade retention => project to stimulate alternatives
- Truancy
 - ⇒ truancy officer
 - ⇒ city wide reports
 - ⇒ 'mirror' at school level (on demand)
- Lack of places @ primary schools

The context: different providers of education

DATA

INFORMATION

In 26 % van de gevallen (78 aanmeldingen) werd de aanvraag wel geregistreerd maar niet opgenomen. In 22% van de gevallen (61 aanmeldingen) volstond een consult om de aanmelder verder te helpen.
 Het CMP-team sprak in nauwe samenwerking met de 7 CLB's: een kleine 15-tal diensten, organisaties en projecten uit de derde lijn aan voor gerichte hulpverlenings-trajecten voor de betrokken jongeren. De partners werden niet enkel aangesproken om dossiers op te nemen. Ze werden waar nodig ook met elkaar gekoppeld en regelmatig bevraagd over resultaten. Dit laat het CMP toe om niet enkel de effectiviteit van de aangesloten hulpverleningsvormen in kaart te brengen, maar staat levers borg voor trajecten met voldoende oog voor nazorg.

KNOWLEDGE

The framework

Knowledge
management

“Adding experience & context”

→ knowledge

WHY?

1. Knowledge about education in Antwerp is
disperse

Inside our organisation:

- AOB = big organisation
- AOB = different specialised sub-departments with own specialists
- Amongst all stakeholders

2. To avoid to stick on the ‘what’ and not get insight
in the underlying assumptions

Participative research

How to get to the level of KNOWLEDGE?

KNOWLEDGE

In 26 % van de gevallen (78 aanvragen) werd de aanvraag wel geregistreerd maar niet opgenomen. In 22% van de gevallen (61 aanvragen) volstond een consult om de aanmelder verder te helpen.
 Het CMP-team sprak in nauwe samenwerking met de 7 CLB's een kleine 15-tal diensten, organisaties en projecten uit de derde lijn aan voor geschikte hulpverlenings-trajecten voor de betrokken jongeren. Die partners werden niet enkel aangeproten om dossiers op te nemen. Ze werden waar nodig ook met elkaar gekoppeld en regelmatig bevestigd over resultaten. Dit laat het CMP toe om niet enkel de effectiviteit van de aangeboden hulpverleningsvormen in kaart te brengen, maar staat tevens borg voor trajecten met voldoende oog voor nazorg.

goals

CIPO

Knowledge Man.

Participative R

Conclusions

Example: Critical Friend Reviews

Knowledge
management

Previously...

e.g. Truancy mirrors

- At city level
- At school level (if desired)

The context

Framework
goals

2012 (COM-REG): CFR with different stakeholders of the truancy mirrors at school level:

Systematically interviewed about:

- Data?
- Information?
- Knowledge?

CIPO

Knowledge Man.

Participative R

Conclusions

Example: Critical Friend Reviews

Knowledge
management

Lessons learned

- Data: registration, reliability, time cost, ...
- Information: the visualisation of the analysis is too complex => no insights. Schools like the benchmark
- Knowledge: truancy officer explains the results, considers good practices and follows up the actions.

*“Schools want to compare
but don’t want to be compared”*

Previously...

The context

Framework
goals

CIPO

Knowledge Man.

Participative R

Conclusions

Example: Data @ school: grade retention

Knowledge
management

Previously...

The context

Framework
goals

CIPO

Knowledge Man.

Participative R

Conclusions

Goal: to stimulate alternatives for GR

1. convince the schools

2. Learning trajectory:

1. Data @ school level about GR: collect, analyse, discuss, learn
2. Participation of the whole team: actions
3. Implementation of the actions

Example: knowledge workshops (internal)

Participative
research

Previously...

The context

Framework
goals

CIPO

Knowledge Man.

Participative R

Conclusions

“Knowledge workshops”:

- Presentation by the researcher or the responsible colleague
- Clarification of the research results
- Individually: how does this relate to your specialisation?
- “What action to undertake?” group discussion / brainstorm / post-it exercise / ...
- Discussion about policy recommendations
- Formulate the policy recommendations and address them to the directors

Data Use by PCG

Participative
research

@ school

@ AOB

Part I: Assessing State of the Art in the Area of Data Use

- a) Creating an Inventory of Available Data
- b) Creating an Inventory of Available Methodologies

Part II: Analysis; Final Report; Conference in autumn 2013

Part III: Description of Tailor Made Methodology to Facilitate the Knowledge-Driven Education Policy in Antwerp

Based on Navigator Data Use Course:

<http://www.pcgpolska.pl/en/education/SchoolImprovement/consulting.html>

Previously...

The context

Framework
goals

CIPO

Knowledge Man.

Participative R

Conclusions

The framework: the future

Participative research

From Participative methods => participative research

- Build upon previous policy recommendations
- Discussion groups also at start of research => all process
- Translation between researchers and practitioners => all process
- Intersession groups (internal; skills)
- Dissemination strategy
- Visualisation
- ...

data

information

knowledge

Previously...

The context

Framework goals

CIPO

Knowledge Man.

Participative R

Conclusions

Participative
research

Example: networking

Internal: 5 teambuilding / year = knowledge exchange

External:

- Growing awareness from schools (Q for more benchmarks, training buurtmonitor)
- Growing awareness from politics

Previously...

The context

Framework
goals

CIPO

Knowledge Man.

Participative R

Conclusions

At a glance: the role of AOB: mediation

- Coordination of the research proces
- Networking between all kind of stakeholders and researchers
- Collect, conserve and disseminate expertise and good practices
- Translate between education specialists and researchers

Previously...

The context

Framework
goals

CIPO

Knowledge Man.

Participative R

Conclusions

Conclusions

Previously...

The context

Framework
goals

CIPO

Knowledge Man.

Participative R

Conclusions

- Opportunities:
 - Creation of the function in AOB
 - Several pieces of our framework, to be developed
 - Development at VL level of data delivering system & vision
 - Renewed partnership contract with VL
 - New 6-year legislation in –A-: EIPP in plans => Q-reports
 - Growing awareness
 - @ school management level
 - @ politic level
- Challenges:
 - Stricter privacy policy from VL => in development in -A-.
 - Until then: no data
 - Disperse and not too much data sources
 - Not yet budget for research or ICT-development

THE SCIENTIFIC METHOD

HERE ARE THE FACTS. WHAT CONCLUSIONS CAN WE DRAW FROM THEM?

THE POLITICAL METHOD

HERE'S THE CONCLUSION. WHAT FACTS CAN WE FIND TO SUPPORT IT?
